DETAILED ACTION

Claims 1-17, 28-30 are pending in this application. Amended claims 1 and newly added claims 28-30 are noted.

The amendment dated 1/30/06 has been entered and carefully considered. The examiner appreciates the amendments to the claims.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-17, 28-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, the preamble states forming diffusion aluminide coatings “on an uncoated surface of a substrate”. However, the first step requires providing a metal substrate comprising an external surface and an internal passage wherein the “external surface of the substrate being coated with a coating layer”. The limitations appear to contradict each other and it is not clear whether the substrate is coated or not prior to cleansing and the aluminum vapor deposition. This issue applies to claims 28-29 as well.

This issue appears to be critical because applicant argues this very issue on p.12 of the response dated 1/30/06.
